[National] The Law of the PRC on Countering Foreign Sanctions (released and effective on June 10, 2021)

As per the Law, where a foreign country, in violation of an international law and the basic norms of international relations, uses various pretexts, or in accordance with its own laws, to contain or suppress China, adopts discriminatory restrictive measures against Chinese citizens and organizations, or interferes in China's internal affairs, China has the right to take corresponding countermeasures. The State Council has the power to decide, suspend or change countermeasures, which may include the following: not issuing visas, prohibiting the entry, cancelling visas and deporting, sealing up or freezing movable or real estate in China, prohibiting or restricting organizations and individuals in China, and trading or cooperating with persons under counter-control.

[Regional] Jiangsu province starts Enterprise Chief Data Officer (CDO) program

Recently, in order to improve the awareness of enterprise data management, the Industry and Information Technology Department of Jiangsu Province has promoted enterprises to build a data-driven management system and decision-making mode, decided to implement the Enterprise Chief Data Officer (CDO) program in the whole province and carried out the first batch of enterprises' CDO pilot work. The enterprises participating in this pilot program must be registered in Jiangsu Province, and they should be independent legal entities without major violations of law or bad credit records in the past three years. The Industry and Information Technology Department of Jiangsu Province will timely train CDOs of pilot enterprises and carry out relevant seminar activities to help CDOs improving their business and working ability.
